

**COME BACK, GIVE ME LOVE**

Carry on dreaming, it's eight o'clock and I'm leaving  
 Got to go to work, got to pay my way  
 Out into the morning, mouth yawning  
 Just thinking of you, it's all I'm thinking about

Did you get my letter, the flowers I picked  
 Your just making me wait, making me pay  
 I look for you in traffic, just to catch a glimpse  
 I'm stuck in my head with you stuck in my heart

I'm not moving on 'less we're moving on together  
 I've got time to spare, for what I want forever  
 I have being a fool and now a broken man  
 So come back give me love  
 Come back give me love

Meet you at the river, one with hope one anger  
 Time's disappeared, months felt like years  
 That olive branch, I put my both hands out to grab it  
 Just want to embrace, want to see your face

I'm not moving on 'less we're moving on together  
 I've got time to spare, for what I want forever  
 I have being a fool and now a broken man  
 So come back give me love  
 Come back give me love

**BIRD, FOX AN OWL**

Little bird you catch that worm easy  
 When you swoop down low to the ground  
 Your grace and elegance pleases  
 The eye, the watching eye

Mr fox you're ever so sneaky  
 Allergic to the day  
 The dark it wakes you from sleeping  
 Pounce right down on your prey

Owl, my favourite the owl  
 In a tree outside of the town  
 Wingspan wide like an eagle  
 Glides without a sound

**BIG CATCH**

There's many a storm  
 Till the sea settles down, all things are restored  
 Slip out of my dream  
 But the morning it follows to knowing what's real

We're on for a big catch  
 Got a thousand miles to travel from here  
 Could it be my last gasp  
 Could the waves drag us down, into the deep

There's many a boat that crosses high water  
 Many that float back to dry land once more  
 But I've got my loves and they'll be waiting for me on the shore

All this for money  
 All of this to fill the fishmongers wage  
 I've had my battles  
 With the sea she shows no mercy to me  
 So what for the big catch  
 What about this heart, and bones  
 See I caught my big catch  
 And they'll be waiting for me on the shore

**Outro**

The sails are up and we're pointed towards home  
 Engines are roaring, weighed down with the load  
 Goodbye mother nature, no fighting no more  
 My final voyage back to, my loves on the shore

**LIKE TREES WE GROW**

From a seed, we grow into ourselves  
 We stretch from end to end  
 Change colour as we need and direction with the wind  
 Take shelter from the rain, strong branch to ease the pain  
 Directed at our skin, our barks more thick than thin

Like trees we grow  
 Like trees we grow

Stand strong, for birds to rest upon  
 And sing their little songs  
 Change colour all can see from brown to yellow,  
 green  
 Only our outside shows, our leaves are getting old  
 Our roots are planted firm in the canvas of the earth

Like trees we grow  
 Like trees we grow

**WATERTIGHT**

A different class of a woman, she is in my mind  
 And we share these roads we walk, side by side  
 We'll always pull together, support each other's plights  
 She's the answer to my call, yeah we're watertight

Oh...Oh Oh Oh  
 Oh...Oh Oh Oh  
 Oh...Oh Oh Oh  
 Oh...Oh Oh Oh

Like ants they roam, down hidden in the soil  
 Where people rarely see, maybe just once in a while  
 Like ants work hard for each other, gathering leaves  
 She's the sails to my boat, yeah we're watertight

Oh...Oh Oh Oh  
 Oh...Oh Oh Oh  
 Oh...Oh Oh Oh  
 Oh...Oh Oh Oh

**SO SAY IT**

Admit time goes fast  
 Words left unsaid so sad  
 All are accused of it  
 Turn thoughts to words  
 Do let them pass

So listen, when you've got something to say  
 So say it, don't let them feelings drift away

I see those wrinkled eyes  
 Ageing as months go by  
 Learn from their teachings  
 To be a better man  
 Turn thoughts to words  
 Don't let them pass

So listen, when you've got something to say  
 So say it, don't let them feelings drift away

**Outro**

So listen, when you've got something to say  
 So say it, don't let them feelings drift away  
 So listen, when you've got something to say  
 So say it, don't let them feelings drift away

**EYES WIDE TO WATERING**

Look up, look out  
 Breath in, speak out  
 Air the lungs  
 Blood the heart  
 A Morning mist  
 Each day's new start

Fall in, don't wait  
 Wander wild, take it in  
 Ears open, birds chatter  
 Beauty reigns no matter  
 Eyes wide, to watering  
 Breeze rests on your lids  
 Lips find new words  
 Speak when you feel the urge

Wandering I'm wondering (It's good for your soul)  
 Wandering I'm wondering

Look up, look out  
 Breath in, speak out  
 Air the lungs  
 Blood the heart  
 A Morning mist  
 Each day's new start

Wandering I'm wondering (It's good for your soul)  
 Wandering I'm wondering

**RUNNING**

Running from no one but yourself you know  
 You can keep running makes no matter where you go  
 Open your soul take a look inside  
 Search, search deep it's there that you will find peace,  
 hiding

Running from no one but yourself you know  
 You can keep running makes no matter where you go  
 Open your soul take a look inside  
 Search, search deep it's there that you will find peace,  
 hiding

Running from no one but yourself you know,  
 Running from no one but yourself you know,

Run.....
